## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 3-6 and 9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

There is no clear antecedent basis for "said elongated handle portion (claim 3, line 2), "the handle" (claim 4, line 4), "the inflatable device" (claim 5, line 2 and claim 6, line 2), or "said handle" (claim 9, lines 2 and 3).

### ***Allowable Subject Matter***

3. Claims 1, 2, 7, and 8 are allowed.
4. Claims 3-6 and 9 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
5. The following is a statement of reasons for the indication of allowable subject matter: The closest prior art (Langley, U.S. Pat. 5,758,917) fails to fairly teach or suggest a rim portion on its receptacle that is moveable relative to its support means between a first deployed position and a second position with the rim portion "collected

together” as is called for in the lone independent claim 1 of the instant application. Instead, Langley provides a drawstring (24) through a center portion (12) of the inflatable tube (2) such that when a user pulls on the drawstring, the center portion is drawn together to seal off the contents of the receptacle but there is no relative movement between the receptacle and a supporting means.

### ***Conclusion***

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Ines shows a feces collector with a receptacle support that is moveable between a collapsed and deployed position.
